Computer Science Major seeks a full time job in programming. Wants to experience how strong foundation in theory and hands-on exercise relates to practical application in a business setting.

Willing to relocate: Anywhere

Work Experience

Software Developer (Contractor)

Self contracting - Harrisonburg, VA
May 2021 to Present

Contact local small business without very large budgets and contract small projects for them. Work as a full-stack developer. I have made a chrome extension for one company, a website for another, and was just contracted to make an inventory manager/ordering application using an API for another. I have used technologies such as Java, Spring Boot, Firebase, MVC, JavaScript, Angular, Bootstrap, JSON, XML, HTML, SASS, and others.

Automotive Diagnostic Specialist and Computer System Maintenance

VA Auto Sales - Harrisonburg, VA
July 2013 to Present

Ensure that systems are up and computers are working. Ensure printers and software are functional. Check that database is storing business data and tax data. Maintaining security camera computer system. Diagnose computer issues in cars and collaborate with mechanic to diagnose and fix vehicles.

Small Business Owner

VA Auto Sales - Rockingham, VA
May 2016 to January 2021

Started a small online business selling car parts. Developed website, manage employee who processes shipments. Engage in leadership and self-motivation. Able to support college expenses.

Software Developer Intern

VA Auto Sales - Orlando, FL
June 2017 to August 2017

Worked on a team of twelve people designing and implementing website to work for people who cannot read. Developed projects using scrum methodology that increased productivity as a group. Quickly learned javascript and the react framework to start working on the project.

Points of Interest

June 2015 to August 2015

- * Lived off of a motorcycle for a month in Mexico
- * Went on a mission trip to Nicaraguan jungles and worked with locals to help the needy, Summer 2015
